

EXHIBIT 1

to Plaintiff's Motion to Alter or Amend Judgment and Memorandum in Support

Southern Utah Wilderness Alliance v. U.S. Department of the Interior,
2:23-cv-00804-TC

This exhibit was prepared using the Bureau of Land Management's "serial register" report system, which allows the public to query an online database for information related to, among other things, oil, natural gas, and mining on BLM-managed lands. The reports are available at <https://reports.blm.gov/reports/MLRS>. This exhibit was generated by selecting "CR Serial Register Page – Oil and Gas & Geothermal," then "Serial Number(s) – Multiple," and then entering the lease number for each of the challenged leases.

The following explanation is provided to assist the Court in understanding how to read the Serial Register Page information. First, the relevant lease number is shown near the top right of the page beneath "Serial Number." For example, PDF page 153 lists lease UTU-93939. Second, on the left side, near the top it lists Case Disposition—which is the current status of the leases (*e.g.*, authorized, closed). UTU-93939 is listed as Authorized. Third, under Case Details, in the right-most column there is an entry for Lease Suspended. UTU-93939 is listed as not suspended ("No"). Finally, Case Customers lists the lessee. AEC is the lessee for UTU-93939. In summary, UTU-93939 is an Authorized lease, not suspended, and is held by AEC.
